

Fiber Optic Technician Training Facilitator

Southern State Community College, Workforce Development, is seeking a training facilitator for our new Fiber Optic Technician program.

Location:

Southern State Community College, 100 Hobart Drive, Hillsboro, Ohio 45133

Classification:

The position is compensated based on the class offering frequency. This is a non-salary or benefits position.

Reports to:

Executive Director of Workforce Development

Responsibilities:

- The position implements classroom and lab instruction leading to the Certified Fiber Optic Technician certification.
- Explain and/or demonstrate safety procedures prior to hands-on learning.
- Utilize a course outline for delivery
- Work with the Executive Director of Workforce Development to schedule classes.
- Provide quality instruction for a diverse student population.
- Perform instructional duties and responsibilities in accordance with district policy and accrediting body regulations.
- Instructors will engage in outreach with program advisory committees to support the placement of students in related employment.
- Will track student attendance and learning by reporting accurate records promptly as required by Southern State Community College Workforce Development and any accrediting organizations.
- Ability to communicate productively with staff, students, and business and industry representatives.
- Will participate in required training for program implementation and program delivery.

Qualifications:

- Must have at least two years' experience in fiber optics or a related field such as Electrical Technologies or Computer Networking.
- Must pass an FBI/BCI background check.
- A High School diploma or equivalent is required

Compensation:

The training facilitator will be considered based on experience in the field, education/training, and instructional time/schedule of the delivery.
